ABOUT

THE CITY STREET REHAB PROGRAM handles street resurfacing and significant curb repairs. This work includes grinding off old roadway surfaces, resurfacing the pavement with new asphalt, and repairing/ replacing curbs where necessary. Residents may notice that the work is not continuous from start to finish on any given street, but it includes breaks for an extended period

while the contractor performs work on other roads. This is part of the scheduling to minimize costs. The job on a particular street is not complete until the pavement is fully replaced and smooth driving surface is restored. Every community in the City of Cincinnati will be targeted for roadwork on a three-year rotation under the Street Rehab Program. The streets listed in this brochure are scheduled to be rehabilitated during the 2011 and 2012 construction seasons.

AVONDALE	program limits
Bartle Avenue	South Terminus to Martin Luther King Jr. Drive
